- ✓ *Class "A" fire product.*
- ✓ *Environmentally friendly.*
- ✓ *Payback your investment in just a few months, not years.*

***DO IT YOURSELF:
5 minutes installation***

STEP BY STEP

Step 1

Open packaging and allow attic cover to relax and return to proper shape.

Step 2

Clean the top of the ceiling joists with a degreaser.

Step 3

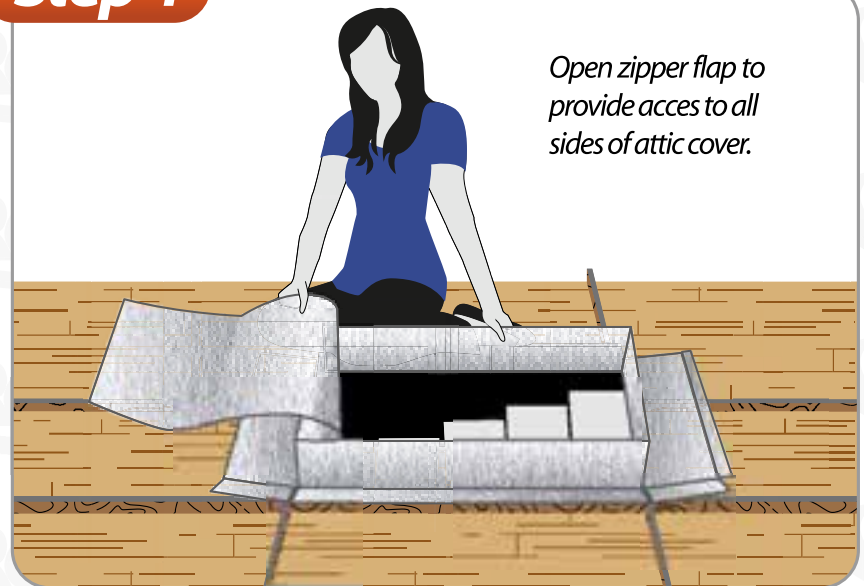

Place side tabs on top of ceiling joists or attic floor.

Make sure to place attic cover with zipper opening at the hinge end of the staircase.

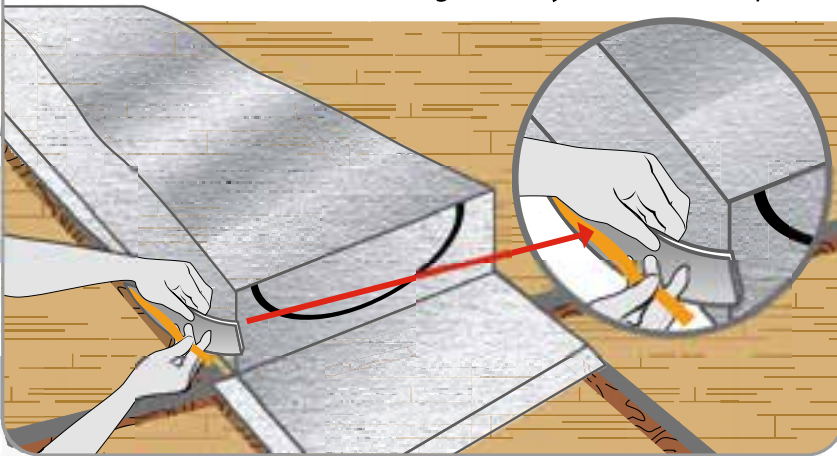

Step 4

Open zipper flap to provide access to all sides of attic cover.

Step 5

Remove one tape at a time and stick to top of ceiling joists and to attic floor forming an airtight seal to your conditioned space.

Step 6

Staple tabs along ceiling joists for more secure placement.

Step 7

Continue former steps until all tape is down and attic is sealed.
Best results when all air leaks are sealed!

Step 8

Close zipper as you
descend the stairs.
